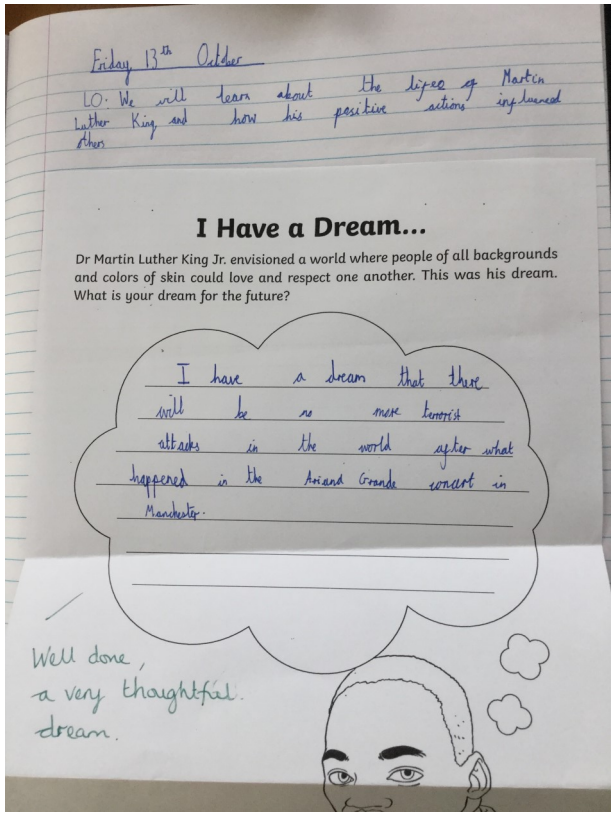
Class 10 studied Martin Luther King for black history week.

We had a class discussion about Martin Luther King and civil rights. We discussed what life was like for black people before the civil rights laws were passed. This really engaged the whole class, and we had a lively and thoughtful discussion about what it must have been like for black people at the time. We listened and watched Dr Martin Luther King's "I have a dream speech" and discussed his vision of the future. We then thought about our own dreams for a better and fairer world.

"I can't believe people were treated this cruelly." Lucy Alcock



Friday 13th October

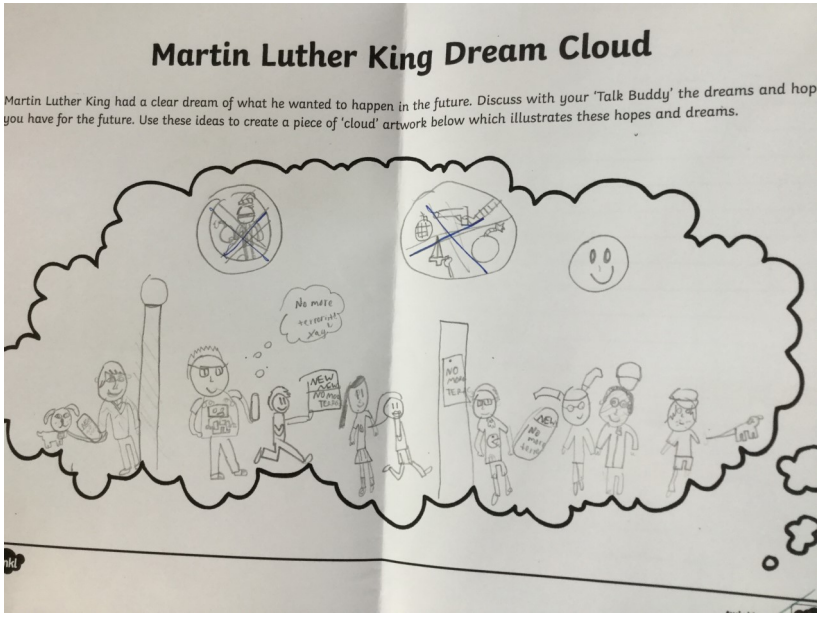
LO: We will learn about the lives of Martin Luther King and how his positive actions influenced others

I Have a Dream...

Dr Martin Luther King Jr. envisioned a world where people of all backgrounds and colors of skin could love and respect one another. This was his dream. What is your dream for the future?

I have a dream that there will be no more terrorist attacks in the world after what happened in the Ariana Grande concert in Manchester.

Well done, a very thoughtful dream.



Martin Luther King Dream Cloud

Martin Luther King had a clear dream of what he wanted to happen in the future. Discuss with your 'Talk Buddy' the dreams and hop you have for the future. Use these ideas to create a piece of 'cloud' artwork below which illustrates these hopes and dreams.

No more terrorist attacks

" I think Martin Luther King was an amazing person because he took risks for other people. He didn't get angry, instead he used peaceful protest" Thomas Carter
