

**MEADOWS PRIMARY SCHOOL AND NURSERY**  
**POLICY FOR THE ADMINISTRATION OF MEDICATION IN SCHOOL**

The Governors and staff of Meadows Primary School and Nursery wish to ensure that pupils with medication needs receive appropriate care and support at school. The Head will accept responsibility in principle for members of the school staff giving or supervising pupils taking prescribed medication during the school day where those members of staff have volunteered to do so.

**Please note that parents should keep their children at home if acutely unwell or infectious.**

Parents are responsible for providing the Principal with comprehensive information regarding the pupil's condition and medication.

Prescribed medication will not be accepted in school without complete written and signed instructions from the parent.

Staff will not give a non-prescribed medicine to a child unless there is specific prior written permission from the parents.

Only reasonable quantities of medication should be supplied to the school (for example, a maximum of four weeks supply at any one time).

Where the pupils travel on school transport with an escort, parents should ensure the escort has written instructions relating to any medication sent with the pupil, including medication for administration during respite care.

Each item of medication must be delivered to the Principal or Authorised Person, in normal circumstances by the parent, in a secure and labelled container as originally dispensed. Each item of medication must be clearly labelled with the following information:

- Pupil's name
- Name of medication
- Dosage
- Frequency of administration
- Date of dispensing
- Storage requirements (if important)
- Expiry date

**The school will not accept items of medication in unlabelled containers.**

Medication will be kept in a secure place, out of the reach of pupils. Unless otherwise indicated all medication to be administered in school will be kept in a locked medicine cabinet.

The school will keep records, which they will have available for parents.

If children refuse to take medicines, staff will not force them to do so, and will inform the parents of the refusal, as a matter of urgency, on the same day. If a refusal to take medicines results in an emergency, the school's emergency procedures will be followed.

It is the responsibility of parents to notify the school in writing if the pupil's need for medication has ceased.

It is the parents' responsibility to renew the medication when supplies are running low and to ensure that the medication supplied is within the expiry date.

The school will not make changes to dosages on parents instructions.

School staff will not dispose of medicines. Medicines, which are in use and in date, should be collected by the parent at the end of each term. Date expired medicines or those no longer required for treatment will be returned immediately to the parent for transfer to a community pharmacist for safe disposal.

For each pupil with long-term or complex medication needs, the Head will ensure that a Medication Plan and Protocol is drawn up, in conjunction with the appropriate health professionals.

Where it is appropriate to do so, pupils will be encouraged to administer their own medication, if necessary under staff supervision. Parents will be asked to confirm in writing if they wish their child to carry their medication with them to school.

**Staff volunteering to assist in the administration of medication will receive appropriate training/guidance through arrangements made with the School Health Service.**

The school will every effort to continue the administration to a pupil whilst on trips away from the school premises, even if additional arrangements might be required.

All staff will be made aware of the procedures to be followed in the event of an emergency.

Further details on the above can be obtained from Department for Education 'Supporting pupils at school with medical conditions':-
